Experience

Snowflake — **Toronto, Canada**
Senior Manager of Product Management — *October 2024 - Present*

Product lead for Developer Platform. My team owns the Driver Ecosystem, Snowflake Data Projects, Snowflake's Git Integration, Snowflake's Terraform Provider, Snowflake's REST APIs (both SQL + Control Plane), Snowflake's Python API (snowpy), and Snowflake's CLIs (SnowCLI + SnowSQL). Our tools our used by thousands of customers supporting over $500 Million in annual revenue.

GitHub — **Toronto, Canada**
Director of Product Management — *September 2022 - September 2024*
Staff Product Manager, Open Source — *June 2020 - August 2022*

In my tenure as Director of Product I ran a number of businesses including Copilot Workspaces for Pull Requests, GitHub Codepsaces, npm, and GitHub Packages. Responsible for developing high level strategy, aligning with executive leadership, and delivering on business goals. In my role as a Staff IC I was the lead for npm and GitHub releases. Was the DRI for multiple cross organization initiatives including enforcing 2FA for npm High-Impact maintainers and bringing the findings of that effort to inform a similar campaign for all of GitHub

Google — **New York City, New York**
